For ages 8 and up with adult supervision

## You will need:

- Masking Tape
  - Scissors
  - White Glue
  - Paint & Brushes
  - 1 Milk Jug (1 gallon)
  - 3- 4 Paper Grocery Bags
- PAPER MACHE RECIPE**
- 2 Cups Water
  - 2 Cups Flour
  - 2 Tbsp Salt

## Instructions:

This craft will take 2–3 days to complete.

**Step 1** ▶ Set-up: This is going to get messy so be prepared! Wear an old shirt or smock and cover the area you will be working in with a drop cloth or papers. Then, set-up all the materials you will need in your workspace.

**Step 2** ▶ Have an adult cut your milk jug in half and remove the top and handle. See fig. B

**Step 3** ▶ Apply masking tape over the holes where the handle was removed.

**Step 4** ▶ Prepare your paper mache paste (see recipe) by combining flour, water and salt in a large bowl and mixing it until completely smooth and without lumps.

**Step 5** ▶ Tear one of your paper bags into a pile of strips. The strips can vary in size but should be about the width of three or four fingers and about twice the length of your hand.

**Step 6** ▶ Apply paper mache to the outside of your jug.
